4. You will be connected to the meeting via your telephone

Now you have set up your meeting and connected with everyone here are a few points to note:

1. Video conferences are not recorded and communication is encrypted end to end
2. If joining by mobile or a wifi connection, quality will be dependent of the network signal strength/data connection speed
3. There are can be some participants that are on video and some on their landline/mobile in the one meeting

Options when you are hosting a meeting

A series of icons will appear at the bottom of the window as below

There are also options in the hamburger at the top of the screen
